**Call for Support of Women in India**

Since April 2021, COVID-19 cases have skyrocketed in India, placing a severe strain on the health system. On 4 May, the Government reported a total of over 20 million cases, and a total over 220,000 deaths. Some hospitals have run out of beds and oxygen, medication is running low, and there are vaccine shortages.

As our committed partners, we hope we can count on your leadership and urgent support to provide women access to basic needs in this critical time.

To know more how you can support UN Women’s emergency response to the crisis in India, please email us at partnerships.asia@unwomen.org. You can also make a donation.

**Survey on New Masculinities**

The "Win-Win: Gender Equality is Good Business" programme invites you to participate in a [survey](#) on strategies to address the impact of new masculinities at work.

The objective is to survey policies and practices that promote new masculinities and co-responsibility for care work in WEPs signatory companies.
The deadline for participation is 8 June 2021. The survey is available here.

Please note that the data collected through this survey will only be used at an aggregate level. Your name or company name will not be associated or mentioned.

We look forward to your participation!
