WELCOME
TO THE COMMUNITY
MESSAGE FROM
THE SECRETARIAT

Gender equality is more than just a moral responsibility. It is also great for business.

By adopting the WEPs you are not only investing in your commitment to gender equality, but also investing in your business.

UN Women and the UN Global Compact encourage their partners and stakeholders to make their commitment to the WEPs visible. There are many benefits to showcasing your status as a WEPs signatory. Consumers, workers, investors and shareholders will know your company has made it a business priority to achieve the highest standards of gender equality and women’s empowerment. As a WEPs signatory, your company stands in solidarity with the United Nations to end gender inequality in the workplace, marketplace and community.

This welcome kit includes plenty of promotional materials and templates which you can download for your internal and external communications – you can use them at your meetings, conferences, booths, events to showcase your commitment – but please note the importance of keeping to our branding and logo guidelines and policies.

Also, check out our user-friendly Women’s Empowerment Principles Gap Analysis Tool (WEPs Tool); it will help you make a confidential self-assessment of your strengths, and show you what you need to do next.

Whether you want to give us feedback or collaborate to promote the WEPs, contact us at weps@unwomen.org.
Congratulations on having taken an important step in the Women’s Empowerment Principles (WEPs) journey.

UN Women and the UN Global Compact launched the WEPs in 2010 with the aim of encouraging businesses to advance gender equality and women’s empowerment. Our objective is to deepen, broaden and strengthen our private sector engagement to help shift behaviours for gender-responsive business conduct.

By signing the CEO Statement of Support, you have joined a network of thousands of business leaders and demonstrated your commitment to advancing gender equality and women’s empowerment in the workplace, marketplace and community.

You have also shown that you know gender equality is not only a matter of fairness – it is critical to job creation, innovation, productivity and sustainable economic growth. Businesses like yours also play a critical role towards the achievement of the Sustainable Development Goals, our roadmap to a more peaceful, just and equal world for all people.

So, your engagement is more important than ever. We thank you for your partnership and look forward to supporting you on your journey.

ABOUT THE WOMEN’S EMPOWERMENT PRINCIPLES

The Women’s Empowerment Principles (WEPs) guide businesses on how to promote gender equality and empower women in the workplace, marketplace and community. Jointly established by the UN Global Compact and UN Women, the WEPs are underpinned by international labour standards and human rights and by the recognition that businesses have an important role in promoting gender equality and women’s empowerment. Adopting the seven principles is the best way that businesses can deliver on the ambitions for gender equality and women’s empowerment as outlined in the 2030 Agenda on Sustainable Development and in the 17 SDGs.

For more information, see www.weps.org, @WEPrinciples
About (insert company)
WHAT ARE THE WOMEN’S EMPOWERMENT PRINCIPLES?

The Women’s Empowerment Principles (WEPs) are a set of Principles offering guidance to business on how to promote gender equality and women’s empowerment in the workplace, marketplace and community. The WEPs are informed by international labour and human rights standards and grounded in the recognition that businesses have a stake in, and a responsibility for, gender equality and women’s empowerment.

The WEPs are a primary vehicle for corporate delivery on gender equality dimensions of the 2030 Agenda and the United Nations Sustainable Development Goals. By joining the WEPs community, the CEO signals commitment to this agenda at the highest levels of the company and to work collaboratively in multistakeholder networks to foster business practices that empower women.

WHY DO WE NEED EQUALITY IN THE WORKPLACE?

To uphold human rights and be inclusive, just and fair: It is really as simple as that. Gender equality in the workplace, marketplace and community advances the Agenda 2030 on Sustainable Development. It is good for society; it is good for the economy; and it benefits everyone.

To improve corporate performance: Women’s equal participation at every level of the company – from the factory floor to the corporate board – leads to better financial performance, and raises returns on investment, market share and stocks.

To attract and retain talent: Companies with fair HR systems that respond to both women’s and men’s needs lead to inclusive recruitment practices, improved retention rates, reduced absenteeism and turnover rates, and an equitable promotion system.

To attract investments: Investors know that companies that promote gender equality are more productive, more profitable and maintain a positive reputation. They are holding companies to more rigorous standards and choosing to invest in sustainable companies that balance purpose and profit and meet the needs of both shareholder and stakeholders.
To increase innovation capacity: A diverse workforce fosters diverse ideas and generates dynamics that encourage creativity and leads to innovation.

To diversify the supplier base: A diversified pool of suppliers enhances supplier availability and security; promotes innovation through the entrance of new products, services and solutions; drives competition; and increases market penetration and access to new markets. Investing in and engaging with women-owned businesses in corporate supply chains also boosts the reputation of companies among their stakeholders and shareholders.

To meet the needs and demands of consumers: Increasingly, consumers are demanding products and services from companies with transparent, responsible business practices that advance gender equality. Women influence the majority of purchasing preferences and decisions. A diverse workforce and supplier base, representing the composition of its consumer base, can help a company meet the product and service needs of their consumers.

To end harmful gender-based stereotypes in advertisement and outreach materials: An unstereotyped world is no longer only a social imperative, but a business one. Advertisements which portray women respectfully as progressive and modern, authentic and multi-dimensional helps advance gender equality while improving customer perception and brand reputation.

To fully integrate into communities: Companies that undertake community consultations with local leaders – women and men – establish strong ties and programmes that benefit all community members and advance gender equality and sustainable development.

PROMOTING THE WEPs

As UN Women and the UN Global Compact, we encourage all our partners and stakeholders to help promote the WEPs signature and implementation throughout the world.

For those eligible to sign the WEPs CEO Statement of Support, we encourage you to make their WEPs commitment visible. There are many benefits to showcasing your status as a WEPs signatory. Consumers, workers, investors and shareholders will know that your organisation has made it a business priority to achieve the highest standards of gender equality and women’s empowerment and that your company stands in solidarity with the United Nations to end gender inequality in the workplace, marketplace and community.

ABOUT THE WEPs LOGO

The WEPs logo has a clean line above the name to symbolize the signature line of the CEO Statement of Support. The line embodies a clear place to start your company’s WEPs journey to achieving gender equality and women’s empowerment.

USING THE “IN SUPPORT OF” LOGO

Maintaining consistency in the display of the WEPs name and logo by the UN Women and the UN Global Compact is an important aspect of the WEPs outreach strategy. Accordingly, where supporting organizations incorporate the WEPs name and logos in their materials for the permitted uses outlined above, they are asked to strictly adhere to the following guidelines regarding the reproduction and display of the WEPs name and logos. The logo must be black on light backgrounds and white on dark backgrounds.

The “In Support of” logo may be used by the WEPs signatories for any promotional activity aimed at increasing awareness of the WEPs, provided they adhere to these Guidelines.

In support of

WOMEN’S EMPOWERMENT PRINCIPLES

Established by UN Women and the UN Global Compact Office

This means that the usage should make clear that its main purpose is to support the mandate of UN Women, UN Global Compact and the WEPs. The primary focus should be the WEPs and not the relationship between the WEPs and the company or the services or products of the company. In short, it is an opportunity to promote the WEPs themselves and encourage others to sign; and not an opportunity for favourable publicity for the company because of its signature of the WEPs. See below for a few sample use-cases.

In all materials on which the WEPs logo or WEPs “In Support of” logo is used, the logo must appear in isolation, uncluttered by competing images. The logo should appear horizontally. The logo should not be used as part of a sentence or word phrase or associated with any non-related symbols or graphical elements. The Endorser logo must not be used out of context where it is unclear to which organization is the supporter of the WEPs.

To use the “In Support of” logo, the signatories must agree to the below Terms and Conditions and complete and sign the Agreement Form here. Once the agreement is completed, a high-resolution PNG and AI files will be provided.
PERMITTED USE OF THE “IN SUPPORT OF” LOGO

Entities that have been authorized to use the “In support of” logo on their website are strongly encouraged to link the logo to the WEPs homepage at www.weps.org. Only use “In Support of” Logo in third-party applications, as the UN logo cannot be used in a commercial context. Follow colour, clear space and minimum size principles of the “In Support of” logo.

Only use our secondary name artwork in third-party applications, as the UN logo cannot be used in a commercial context. Follow color, clear space and minimum size principles of our name artwork.

Note: Always use a descriptive line such as “In support of” when using our name artwork in third-party applications.
